COURSE - *Brook Lcs C.C.*

NO 12 GREEN

At A fill 2 ft.

At B fill 1 ft. so as to re-
the sharp slope.

On rear half, C, a plateau
above the level of base of
stake.

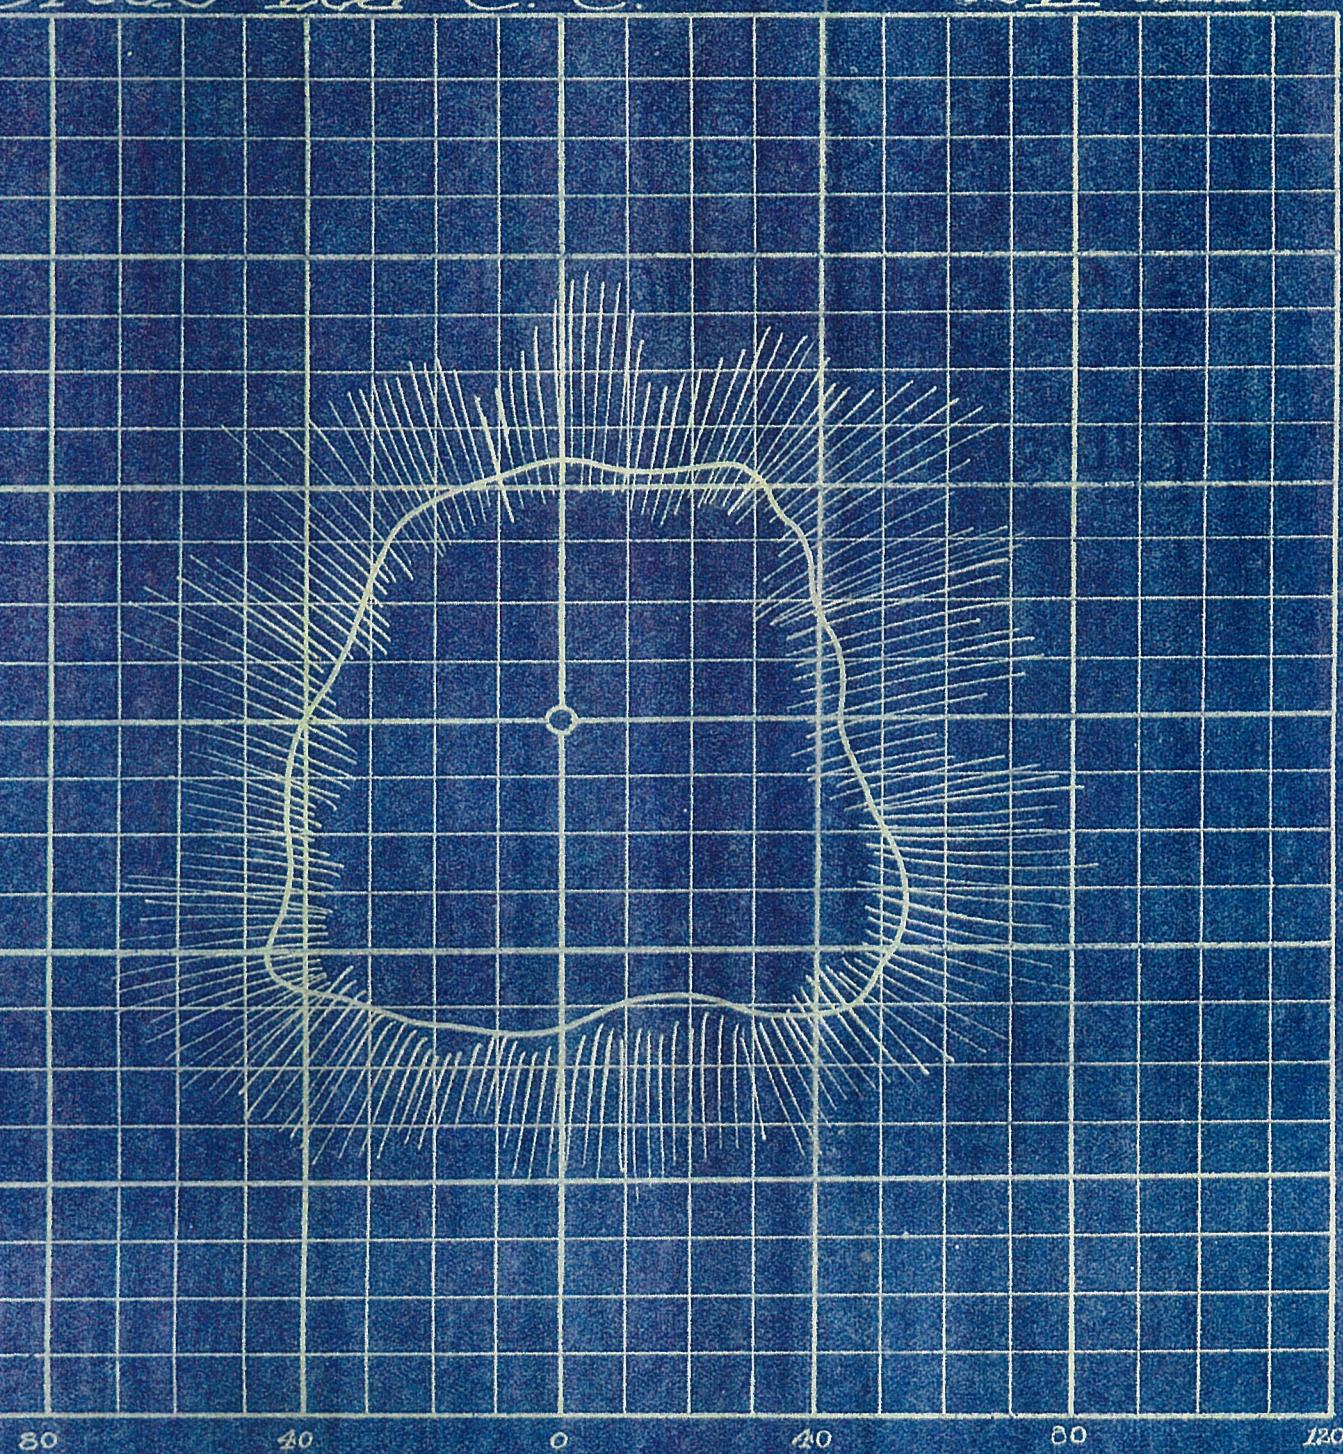

Green 85 ft. long by 60 ft.

7, 8. Bunkers finished 4 ft.
deep.

DONALD J. ROSS,
GOLF ARCHITECT.

COURSE - *Brook Tee C. C.*

NO ~~11~~ GREEN

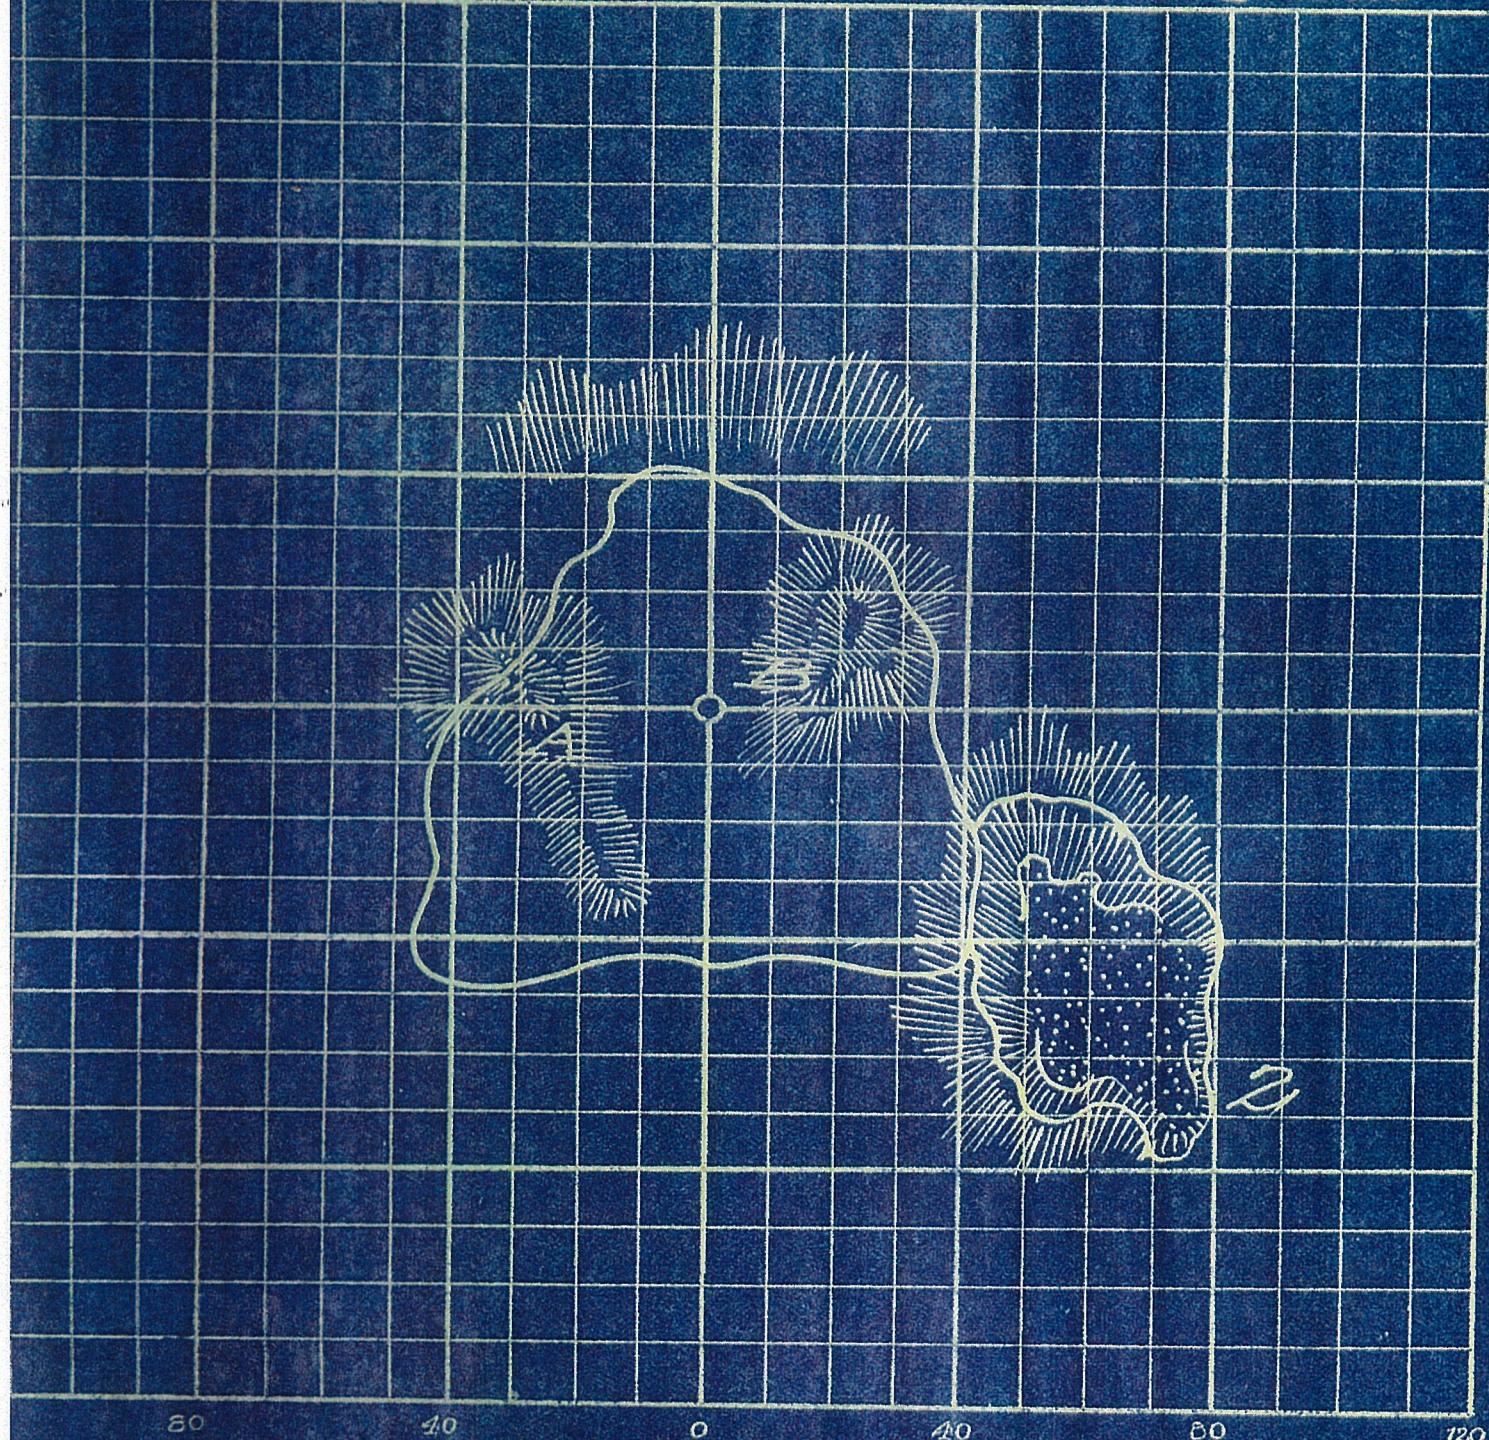

Natural knoll green; no
change in contours requir

DONALD J. ROSS,
GOLF ARCHITECT.

JRSE - Brook Tee C. C.

NO 8 GREEN #43

While it is desirable to have a clear view of Green, it is not essential, so if the cut or fill entails too much work leave the putting surface blind.

Body of green raised so that it can be seen from 200 yd. mark.

Lower the ridge in front to procure necessary material.

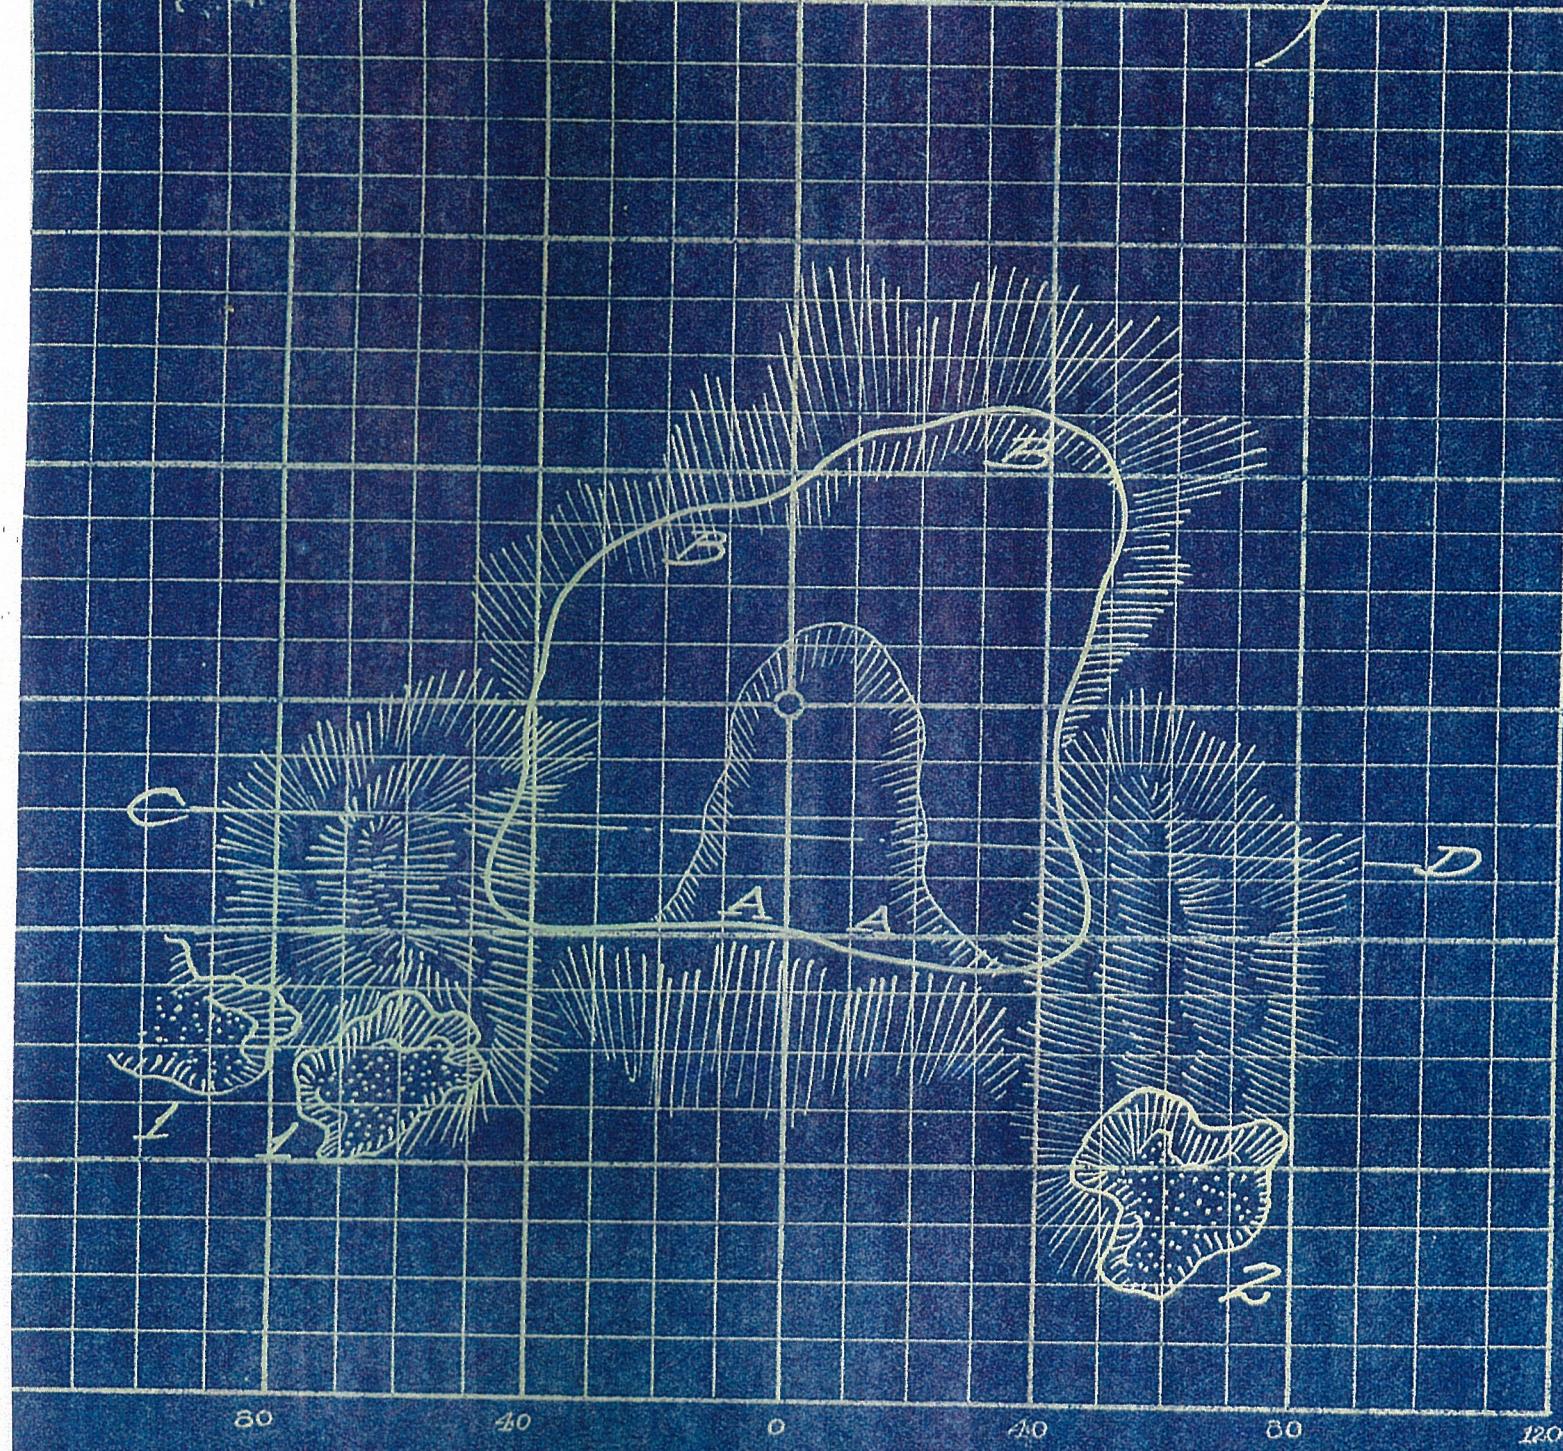

A. B. Undulations 1 ft. high.

2. Bunker finished 3 ft. 6 in. deep.

DONALD J. ROSS,
GOLF ARCHITECT.

COURSE - Brook Lee C. C.

NO 7 GREEN

Body of green raised 2 ft. at A and 4 ft. at B.

Note the hollow effect horse-shoe shape in front-centre.

Back of green to have a bold background and irregular in shape.

On front corners build flat undulations not less than 4 ft 6 in. high forming faces for bunkers 1 and 2.

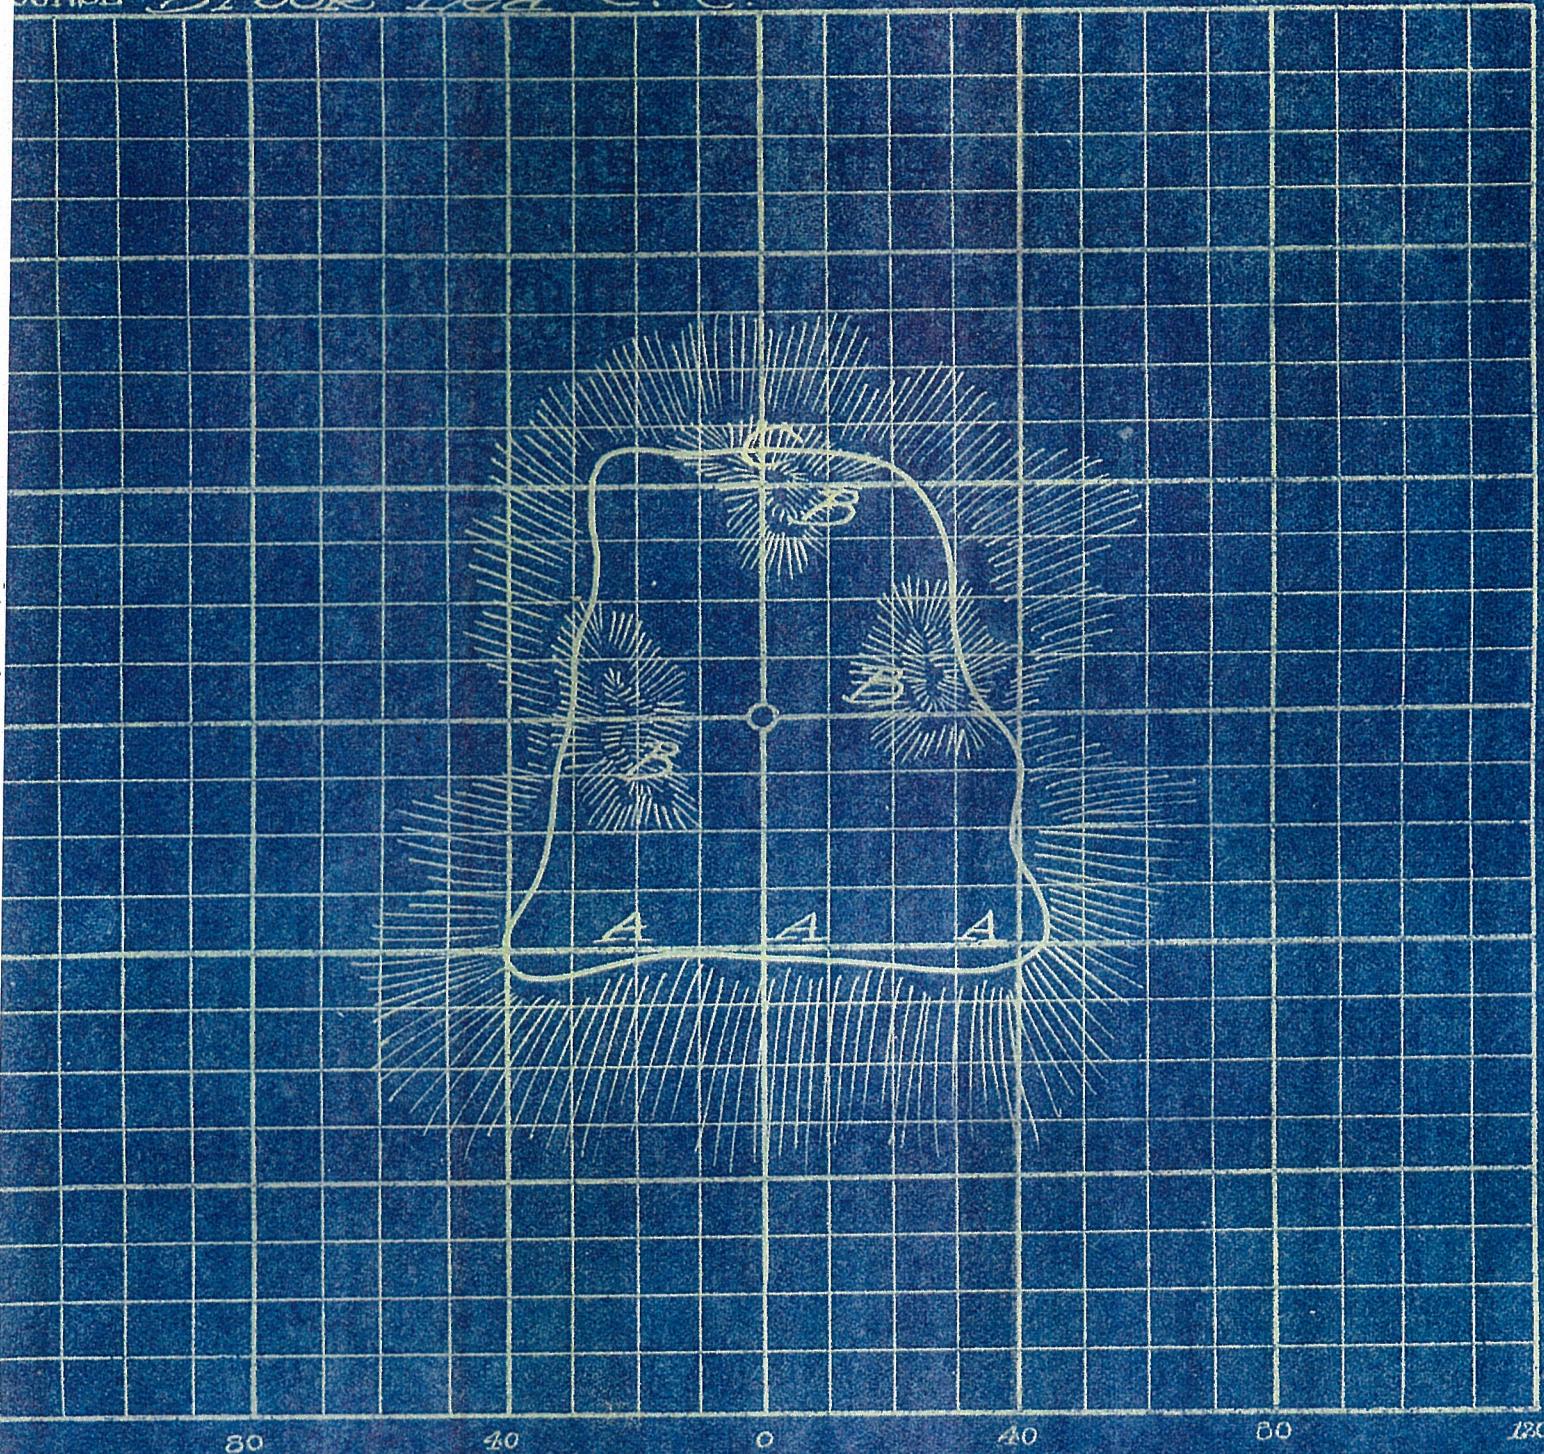

Section C-D

DONALD J. ROSS,
GOLF ARCHITECT.

COURSE - Brook Tee C. C.

NO. 3 GREEN

Front edge at A lowered and rear at C raised sufficient to have all the surface of green clear in view from the 225 yd. mark.

Keep the knoll effect on the fill at the rear.

No sharp terraces to appear on finished grade.

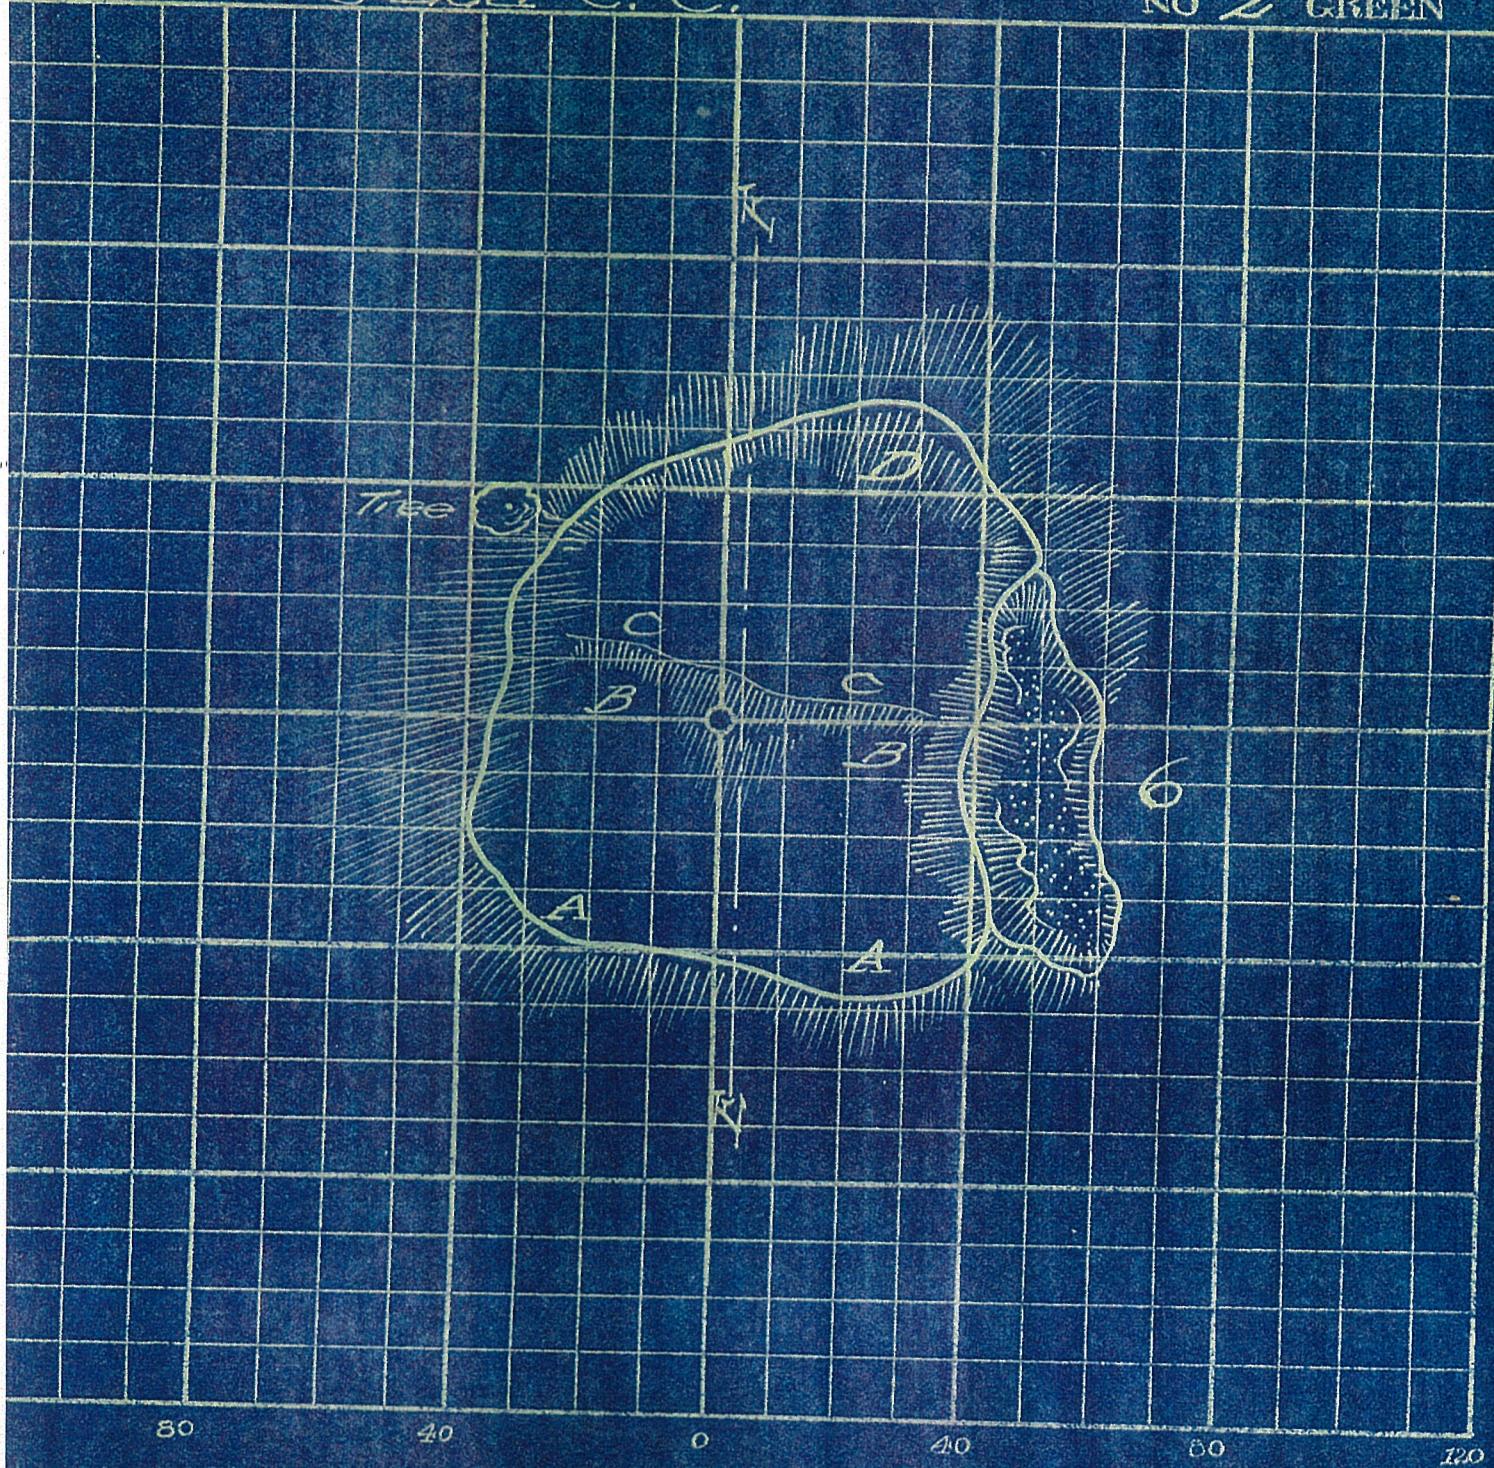

B. Slight undulations on the surface.

DONALD J. ROSS,
GOLF ARCHITECT.

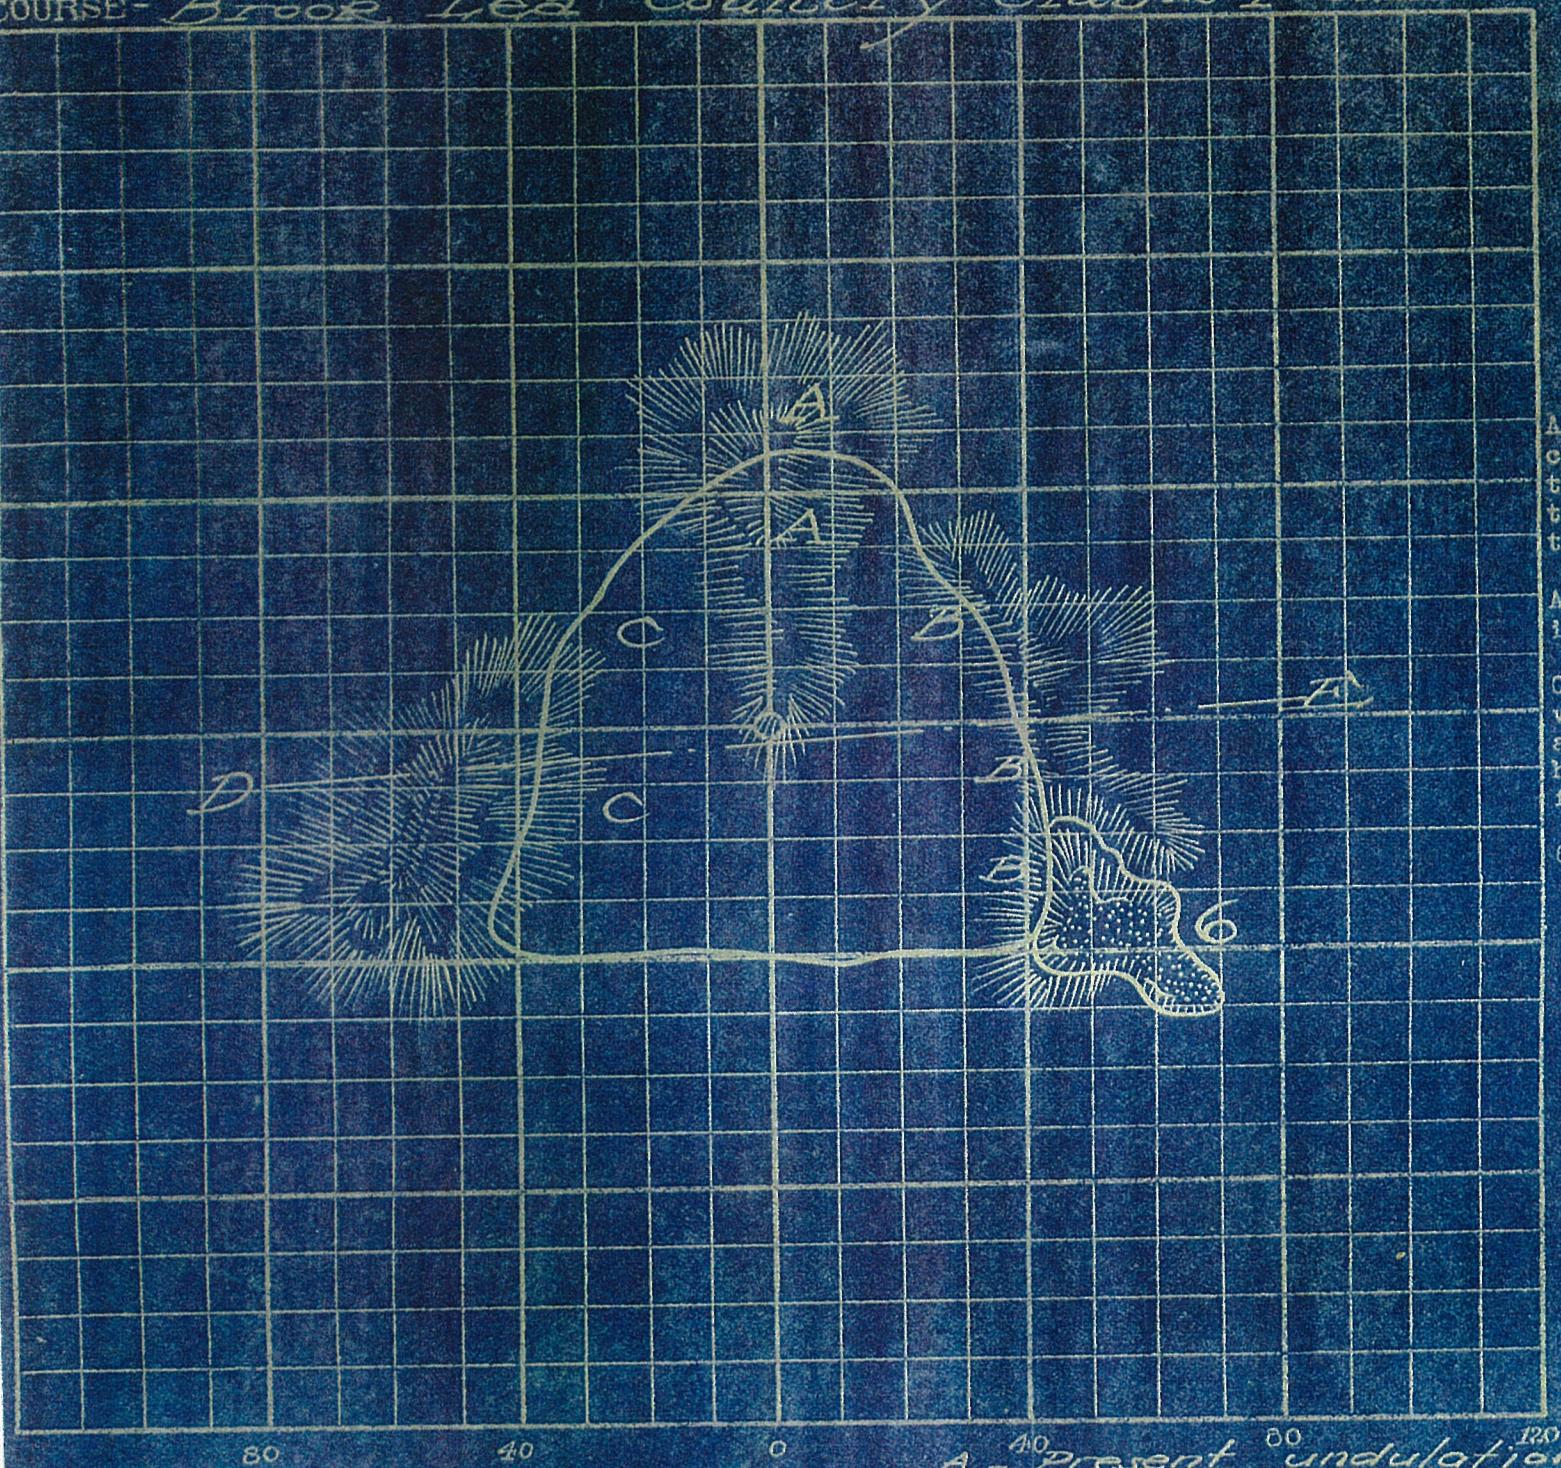

URSE - Brook Tee C. C.

NO 2 GREEN

DONALD J. ROSS,
GOLF ARCHITECT.

COURSE - Brook Lea Country Club NO 1 GREEN

A is present undulation, no change unless found necessary that it should be raised so as to be clearly in view from the tee and from the 200 yd. mark.

At B fill sufficient to bring it 1 ft. below the level of A.

C is a present valley raised very slightly to provide drainage. It must be left as a hollow on finished surface. No fill on the rear.

6. Bunker finished 4 ft. deep.

A - present undulations

Present hollow

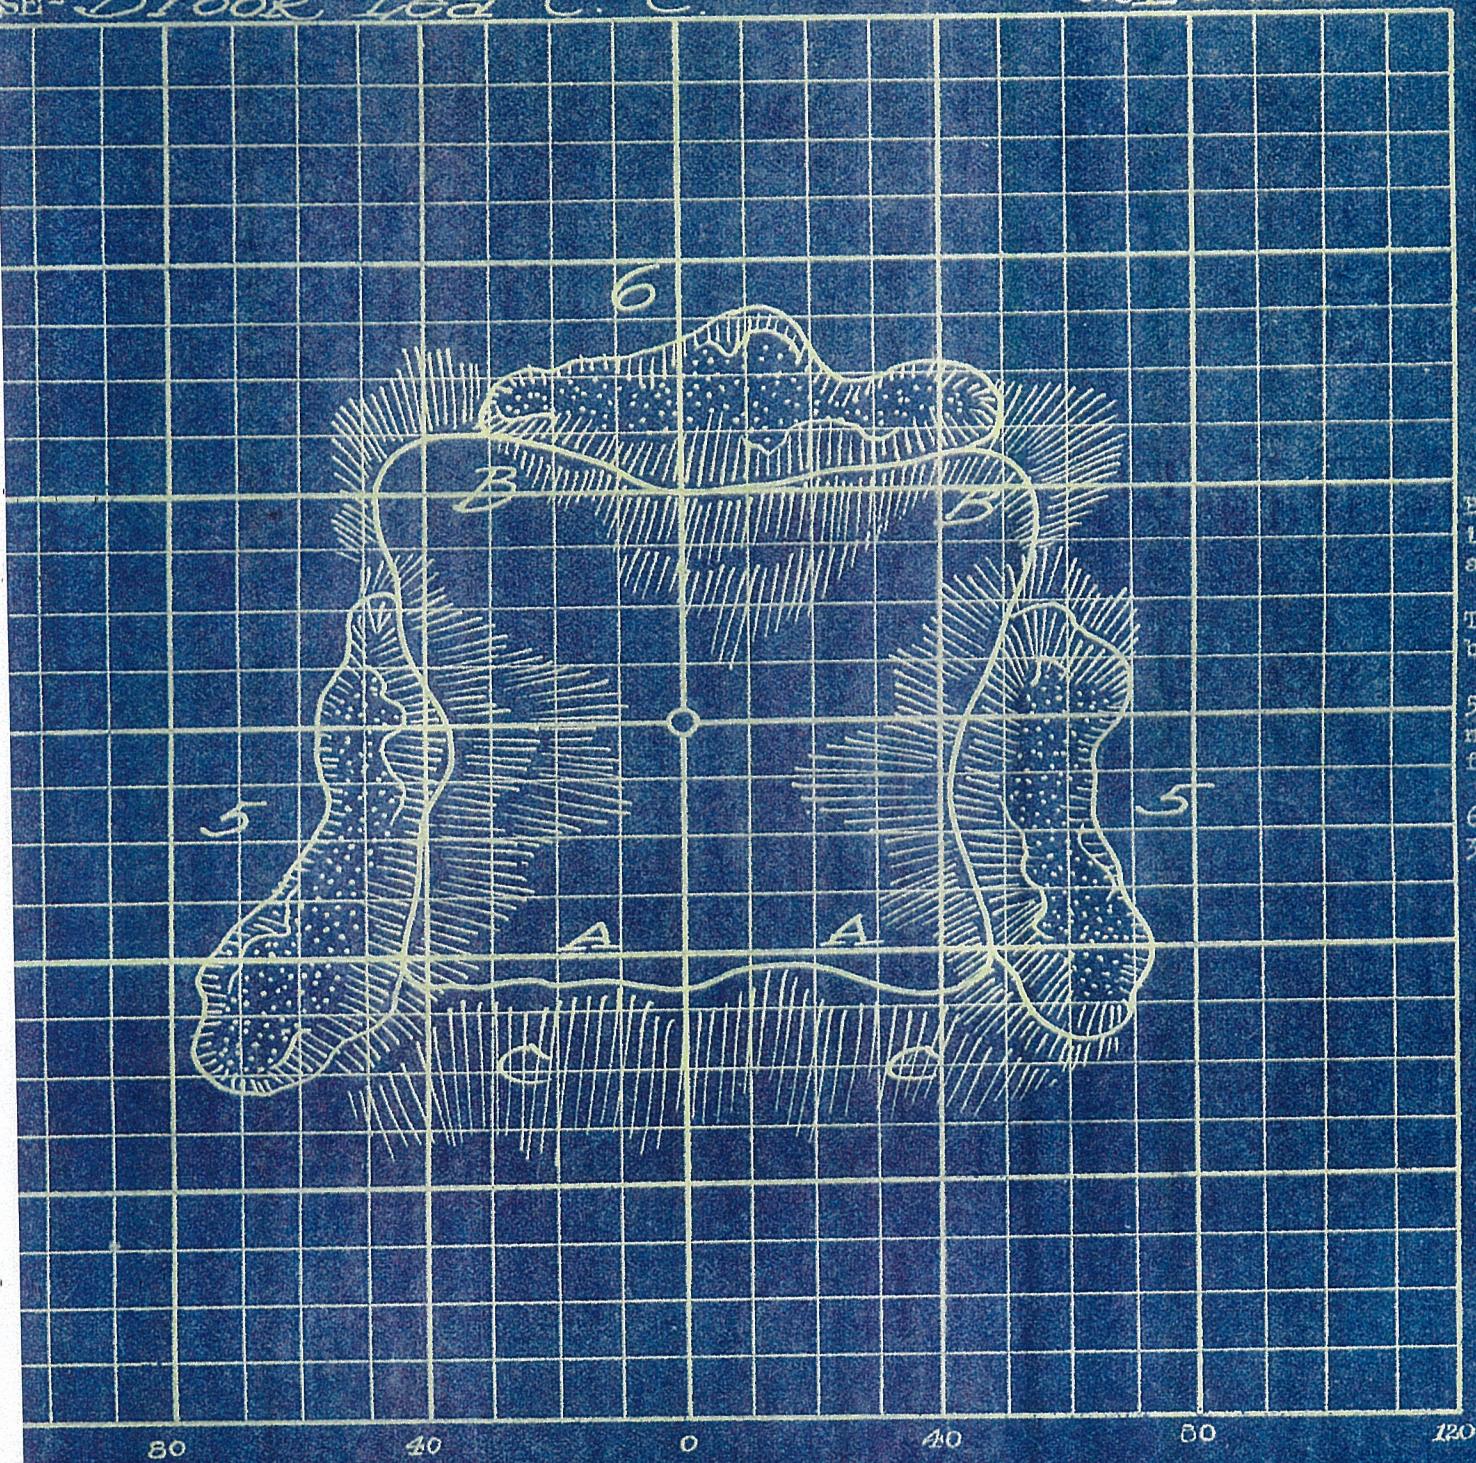

Fill sufficient to bring to a level 1'0" below A.
